

2022 November Pot washing “Party”

After donations of used pots built up in the storage area, Greenhouse Administrator Lisa Sailing invited members to an afternoon washing the pots so they were usable for new plantings. This was scheduled for an after lunchtime because the end of November mornings had been too cold to be dipping hands and arms into the vinegar and water solution. However, the Arizona sun soon chased the cleaning operation into the shade. The strong sunshine was helpful in quickly drying the pots.
