

2022 Replenishing the Plant Inventory

Prior to moving out of the old greenhouse in 2021, plants were sold to members at cost, and many plants were donated to the Sun City West and Sun City Prides groups.

Thus, very few plants needed to be moved to make room for construction the new greenhouse.

When the club moved into the new greenhouse, it was a major challenge to harvest plants and cuttings and pot them up so the club had sufficient inventory to restart plant sales
