

2023 Speech on Plant Prep for Summer

One of the stated purposes of the SCW Desert Garden Club is education on desert gardening. On March 30, DGC member Jim Consolloy was part of a program for the SCW Library. He talked about getting homeowners' vegetation ready for vacation mode in SCW. He offered two check-off handouts to help people make sure their plants survive the hot summer months when many will be spending that time in a cooler climate.

The SCW Posse also gave advice including information on their Vacation Watch Program.

The Educational Outreach Committee of the club scheduled several education programs like this for both club members and the public.
