

2024 February Membership Meeting

President Julia Miller conducted the February Membership Meeting in the East Social Hall of R.H. Johnson Recreation Center on the 13th of the month.

The membership approved spending nearly \$1700 on the waterwall cooling system in the greenhouse.

The featured speaker was Sue Schmidt who demonstrated many aspects of the Japanese style of floral arrangements called Ikebana. She showed the members how to use many natural plant parts—some that many would regard as worthless “junk” - into unique, artistic creations. She spoke of both the rules of Ikebana as well as how to adjust plant parts to make a unique statement.

The meeting concluded with seven people taking home door prizes of either plantings from the greenhouse or creations made by Ms. Schmidt.
